AI-NATIVE INSURANCE BROKING FOR INDIA

Investor One-Pager
August 2026

₹5 Cr
Seed Raise

6 Months
Roadmap to Commercial Pilot Launch

AI + Human
Licensed Oversight on Every Case

01 THE PROBLEM

Insurance broking runs on trust — today's model breaks it

No Trusted Brand

No household name — no "Colgate" of insurance broking.

2-4 Week Delays

Manual, human-run workflows stall B2B placements for weeks.

No Audit Trail

Broker-client-insurer flows live on WhatsApp and email.

Broker Bias

Recommendations often favor commission or insurer bias.

02 THE SOLUTION

AI agents run the workflow. Licensed experts sign off.

NitiCover is an AI-native insurance broker. Autonomous agents generate recommended underwriting and quotation — clauses matched to each client's real risk profile, 24/7, with zero handoff latency. Brokers and insurers validate in minutes, not weeks.

AI-Recommended Underwriting

Client risk profiled automatically, end to end.

Best-Fit Quotation & Clauses

Coverage matched to client need — not broker margin.

24/7 Live Agents

Always-on reminders, zero-latency handoffs.

Human-Validated

Licensed broker & insurer sign-off on every case.

03 BUSINESS MODEL

Placement Commission

Insurer-paid on every policy placed — up to 30% (general) / 35% (health) of premium under IRDAI EOM caps.

Renewal / Trail Commission

Recurring revenue that compounds as the client book grows year over year.

Advisory Retainers

Risk-management & claims-consultancy fees for larger B2B accounts.

04 MARKET OPPORTUNITY

₹3.07L Cr

India non-life insurance premium, FY25

Source: IRDAI

~37%

of non-life premium placed via brokers — up from ~17% a decade ago

Source: IBAI

₹8,500-9,000 Cr

Estimated commercial / B2B broking revenue pool

Source: Nexdigm

\$1.16B+

Indian insurtech market size, 2025 — double-digit CAGR

Source: IMARC

05 MVP + PILOT TARGETS

<48 hrs

Quote-to-bind, down from 2-4 weeks

-70%

Reduction in manual processing errors

24/7

Live agent availability

100%

Compliant audit trail
