

AI-Native Insurance Broking for India

Investor Overview · August 2026

upto ₹5Cr
pre-Seed Committed

6-Month Roadmap to
IRDAI Sandbox Pilot

AI Agents +
Licensed Human Oversight

Insurance Broking Runs on Trust & Today's Model Breaks It

Five structural gaps compound into 2–4 week B2B delays and client fear

No Trusted Brand

No household name,
No “Colgate” of insurance broking

2–4 Week Delays

Manual, human-run workflows stall
B2B placements for weeks

No Audit Trail

Broker–client–insurer flows live on
WhatsApp and email

Zero Transparency & Fear

Clients now hire outside consultants
just to feel safe & not get ripped off

Broker Bias

Recommendations often favor the
broker’s own commission
or insurer relationship bias

NitiCover: AI Agents Run the Workflow. Licensed Experts Sign Off.

NitiCover is an AI-native insurance broker.

Autonomous agents generate the recommended underwriting and quotation, clauses matched to each client's real risk profile 24/7, with zero handoff latency.

Brokers and insurers validate in minutes, not weeks — so speed never comes at the cost of compliance.

AI-Recommended Underwriting

Client risk profiled automatically, end to end

Best-Fit Quotation & Clauses

Coverage matched to client need — not broker margin

24/7 Live Agents

Always-on reminders, zero-latency handoffs

Human-Validated

Licensed broker & insurer sign-off on every case

From Client Brief to Bound Policy : In Days (Possibly Hours), Not Weeks

Every step is timestamped and logged — a 10-year, IRDAI audit-ready trail by design.

A ₹3+ Lakh Crore Market Shifting to Brokers

₹3.07L Cr

India non-life insurance premium, FY25

Source: IRDAI

~37%

of non-life premium now placed via brokers — up from ~17% a decade ago

Source: IBAI

₹8,500–9,000 Cr

Estimated commercial / B2B broking revenue pool

Source: Nexdigm

\$1.16B+

Indian insurtech market size, 2025 — growing at a double-digit CAGR

Source: IMARC — 2025 industry estimates

Commission-Led Revenue, Compounding With Renewals

Placement Commission

Insurer-paid on every policy placed — entity-level cap up to 30% (general) / 35% (health) of premium; no per-product ceiling since the 2023 EOM reform

Renewal / Trail Commission

Recurring revenue that compounds as the client book grows year over year

Advisory Retainers

Risk-management and claims-consultancy fees for larger B2B accounts, layered on top of commission

Illustrative model — final rates fall within each insurer's IRDAI-approved EOM budget

Built for Speed, Accuracy, and Auditability

<48 hrs (target)

Quote-to-bind cycle, down from 2–4 weeks

-70% (target)

Reduction in manual processing errors

100%

Digitized, IRDAI-compliant
10-year audit trail

24/7

Live agent availability,
zero handoff latency

Targets for the MVP + pilot phase, to be validated during IRDAI Sandbox testing

Path to a Licensed, Compliant Launch

6-month roadmap: MVP → Sandbox → pilot → commercial scale

Deploying ₹50 Lakh Over 6 Months

₹10L held as fixed regulatory capital for IRDAI Sandbox / broker-license compliance

Building India's First AI-Native Insurance Broker

- 6-month roadmap to a Sandbox-validated pilot
- AI agents + licensed human oversight, by design
- Targeting the ₹8,500+ Cr B2B broking opportunity

“The trusted brand, insurance broking has never had.”
